Subject Index

Volume 83, January-June 1991

A

A23187

Endothelium-Dependent Responses in Long-term Human Coronary Artery Bypass Grafts, 402
Loss of Endothelial Pertussis Toxin-Sensitive G Protein Function in Atherosclerotic Porcine Coronary Arteries, 652

Aberrant conduction

A New Approach to the Differential Diagnosis of a Regular Tachycardia With a Wide QRS Complex, 1649

Abrupt occlusion syndrome

Acute Coronary Artery Occlusion During and After Percutaneous Transluminal Coronary Angioplasty: Frequency, Prediction, Clinical Course, Management, and Follow-up, 927

Accessory atrioventricular connections

Electrocardiographic Body Surface Potential Mapping in the Wolff-Parkinson-White Syndrome: Noninvasive Determination of the Ventricular Insertion Sites of Accessory Atrioventricular Connections, 886

Accessory pathway

Linking in Accessory Pathways: Functional Loss of Antegrade Preexcitation, 1221

Acetylcholine

Endothelium-Induced Vasoconstriction in Humans: Reversal by Calcium Channel Blockade but Not by Nitrovasodilators or Endothelium-Derived Relaxing Factor, 469
Endothelium-Dependent Responses in Long-term Human Coronary Artery Bypass Grafts, 402
Modulation of Coronary Vasomotor Tone in Humans: Progressive Endothelial Dysfunction With Different Early Stages of Coronary Atherosclerosis, 391

N-Acetylcysteine

Intravenous Nitroglycerin Infusion Inhibits Cyclic Blood Flow Responses Caused by Periodic Platelet Thrombus Formation in Stenosed Canine Coronary Arteries, 2122

Acetylsalicylic acid

Nd:YAG Laser With Sapphire Tip Combined With Balloon Angioplasty in Peripheral Arterial Occlusions: Long-term Results, 141

Acidosis

Early Afterdepolarizations and Triggered Activity in Rabbit Cardiac Purkinje Fibers Recovering From Ischemic-like Conditions: Role of Acidosis, 1352

Actin isoforms

Fibrocellular Tissue Response After Percutaneous Transluminal Coronary Angioplasty: An Immunocytochemical Analysis of the Cellular Composition, 1327

Activation sequence

Sinoventricular Transmission in 10 mM K⁺ by Canine Atrioventricular Nodal Inputs: Superior Atrionodal Bundle and Proximal Atrioventricular Bundle, 1738

Acute lower-limb ischemia

Intra-Arterial Urokinase As the Initial Therapy for Acutely Ischemic Lower Limbs, 1-106

Acute myocardial infarction

Diagnostic Efficiency of Troponin T Measurements in Acute Myocardial Infarction, 902
Diltiazem Increases Late-Onset Congestive Heart Failure in Postinfarction Patients With Early Reduction in Ejection Fraction, 52
Identification of Acute Myocardial Infarction Patients Suitable for Early Hospital Discharge After Aggressive Interventional Therapy: Results From the Thrombolysis and Angioplasty in Acute Myocardial Infarction Registry, 1186

Multicenter Patency Trial of Intravenous Anistreplase Compared With Streptokinase in Acute Myocardial Infarction, 126

Acute rejection

Alterations in Left Ventricular Diastolic Twist Mechanics During Acute Human Cardiac Allograft Rejection, 962

Adenosine

Adenosine Increases Sympathetic Nerve Traffic in Humans, 1668
Cardiac Electrophysiology of Adenosine: Basic and Clinical Concepts, 1499
Reduction of Myocardial Reperfusion Injury by Intravenous Adenosine Administered During the Early Reperfusion Period, 237

Adenylate cyclase

A₁-Adenosine Receptor Inhibition of Adenylate Cyclase In Failing and Nonfailing Human Ventricular Myocardium, 1343

ADP

Loss of Endothelial Pertussis Toxin-Sensitive G Protein Function in Atherosclerotic Porcine Coronary Arteries, 652

α -Adrenergic receptors

Influence of Hypoxia on Adrenergic Modulation of Triggered Activity in Isolated Adult Canine Myocytes, 248
Loss of Endothelial Pertussis Toxin-Sensitive G Protein Function in Atherosclerotic Porcine Coronary Arteries, 652

β -Adrenergic receptors

β -Blocker Treatment of Dilated Cardiomyopathy: Beneficial Effect of Carteolol in Mice, 2021
Echocardiographic Detection of Coronary Artery Disease During Dobutamine Infusion, 1605
Influence of Hypoxia on Adrenergic Modulation of Triggered Activity in Isolated Adult Canine Myocytes, 248
Limb Vascular Responsiveness to β -Adrenergic Receptor Stimulation in Patients With Congestive Heart Failure, 1873

Afterdepolarizations

Influence of Hypoxia on Adrenergic Modulation of Triggered Activity in Isolated Adult Canine Myocytes, 248

Afterload

Effect of Volume Loading, Pressure Loading, and Inotropic Stimulation on Left Ventricular Torsion in Humans, 1315

Age

Exercise Training Improves Left Ventricular Systolic Function in Older Men, 96

AHA Medical/Scientific Statements

An Updated Coronary Risk Profile: A Statement for Health Professionals, 356
ACC/AHA Guidelines and Indications for Coronary Artery Bypass Graft Surgery: A Report of the American College of Cardiology/American Heart Association Task Force on Assessment of Diagnostic and Therapeutic Cardiovascular Procedures, 1125
Cardiovascular Diseases and Stroke in African-Americans and Other Racial Minorities in the United States: A Statement for Health Professionals, 1462
Current Role of Catheter Ablative Procedures in Patients With Cardiac Arrhythmias: A Report for Health Professionals From the Subcommittee on Electrocardiography and Electrophysiology, American Heart Association, 2146
Improving Survival From Sudden Cardiac Arrest: The "Chain of Survival" Concept: A Statement for Health Professionals From the Advanced Cardiac Life Support Subcommittee and the Emergency Cardiac Care Committee, American Heart Association, 1832

- Prevention of Bacterial Endocarditis: A Statement for Health Professionals From the Committee on Rheumatic Fever, Endocarditis, and Kawasaki Disease of the Council on Cardiovascular Disease in the Young, the American Heart Association, 1174
- Standards for Analysis of Ventricular Late Potentials Using High-Resolution or Signal-Averaged Electrocardiography: A Statement by a Task Force Committee of the European Society of Cardiology, the American Heart Association, and the American College of Cardiology, 1481
- Alcohol**
Sex Differences in High Density Lipoprotein Cholesterol Among Low-Level Alcohol Consumers, 176
- Aldosterone**
Pathological Hypertrophy and Cardiac Interstitium: Fibrosis and Renin-Angiotensin-Aldosterone System, 1849
- Ambulatory monitoring**
Relations Between Heart Rate, Ischemia, and Drug Therapy During Daily Life in Patients With Coronary Artery Disease, 1263
- Amflutizole**
Xanthine Oxidase Inhibition Does Not Limit Canine Infarct Size, 995
- Amputation**
Intra-Arterial Urokinase As the Initial Therapy for Acutely Ischemic Lower Limbs, I-106
- Anaerobic threshold**
Anaerobic Threshold in Patients With Exercise-Induced Myocardial Ischemia, III-50
- Aneurysms**
Advances in the Treatment of Complex Cerebrovascular Disorders by Interventional Neurovascular Techniques, I-196
- Anger**
Autonomic Nervous System and Coronary Blood Flow Changes Related to Emotional Activation and Sleep, II-81
- Angina**
Exercise Testing in Patients With Microvascular Angina, III-73
Effects of Asymptomatic Ischemia on Long-term Prognosis in Chronic Stable Coronary Disease, 1598
Quality of Life After Bypass Surgery for Unstable Angina: 5-Year Follow-up Results of a Veterans Affairs Cooperative Study, 87
Ten-Year Incidence of Myocardial Infarction and Prognosis After Infarction: Department of Veterans Affairs Cooperative Study of Coronary Artery Bypass Surgery, 747
- Angiography**
Clinical and Anatomic Considerations for Surgery in Tibial Disease and the Results of Surgery, I-81
Coronary Dynamics and Mental Arithmetic Stress in Humans, II-94
Left Ventricular Passive Diastolic Properties in Chronic Mitral Regurgitation, 797
Modulation of Coronary Vasomotor Tone in Humans: Progressive Endothelial Dysfunction With Different Early Stages of Coronary Atherosclerosis, 391
- Angioplasty**
A Caveat, I-146
Advances in the Treatment of Complex Cerebrovascular Disorders by Interventional Neurovascular Techniques, I-196
Aortoiliac Disease Treatment—A Surgical Comment, I-61
Clinical and Anatomic Considerations for Surgery in Tibial Disease and the Results of Surgery, I-81
Clinical and Anatomical Considerations for Nonoperative Therapy in Tibial Disease and the Results of Angioplasty, I-86

Ten-Year Incidence of Myocardial Infarction and Prognosis After Infarction: Department of Veterans Affairs Cooperative Study of Coronary Artery Bypass Surgery, 747

QT interval

Rate Dependence of Sotalol-Induced Prolongation of Ventricular Repolarization During Exercise in Humans, 536

Quantitative coronary angiography

Physiological Assessment of Sensitivity of Noninvasive Testing for Coronary Artery Disease, III-43

R

Race

Racial Differences in Responses to Thrombolytic Therapy With Recombinant Tissue-Type Plasminogen Activator: Increased Fibrin(ogen)olysis in Blacks, 170

Radiofrequency current

Catheter Ablation of Atrioventricular Junction Using Radiofrequency Current in 17 Patients: Comparison of Standard and Large-Tip Catheter Electrodes, 1562

Radioisotopes

Right Coronary Artery Disease: Pathophysiology, Clinical Relevance, and Methods for Recognition, III-54

Radionuclide

Noninvasive Identification of Myocardium at Risk in Patients With Acute Myocardial Infarction and Nondiagnostic Electrocardiograms With Technetium-99m-Sestamibi, 1615

Radionuclide angiography

Comparison of Exercise Testing With Studies of Coronary Flow Reserve in Patients With Microvascular Angina, III-77

Coronary Vasoconstriction Induced by Vasopressin: Production of Myocardial Ischemia in Dogs by Constriction of Nondiseased Small Vessels, 2111

Radionuclide imaging

In Vivo Technetium-99m S12 Antibody Imaging of Platelet α -Granules in Rabbit Endothelial Neointimal Proliferation After Angioplasty, 224

Recoil

Morphological Observations Late (>30 Days) After Clinically Successful Coronary Balloon Angioplasty, I-28

Reentry

Circus Movement Atrial Flutter in Canine Sterile Pericarditis Model: Activation Patterns During Entrainment and Termination of Single-Loop Reentry In Vivo, 1716

Functional Role of the Epicardium in Postinfarction Ventricular Tachycardia: Observations Derived From Computerized Epicardial Activation Mapping, Entrainment, and Epicardial Laser Photoablation, 1577

On the Mechanisms of Ventricular Tachycardia Acceleration During Programmed Electrical Stimulation, 1621

Refractoriness

Characterization of Refractory Period Extension by Transcardiac Shock, 2057

Regenerated endothelium

Loss of Endothelium Pertussis Toxin-Sensitive G Protein Function in Atherosclerotic Porcine Coronary Arteries, 652

Regional blood flow

Coronary Vasodilator Reserve: Comparison of the Effects of Papaverine and Adenosine on Coronary Flow, Ventricular Function, and Myocardial Metabolism, 294

Regional function

Myocardial Perfusion-Contraction Matching: Implications for Coronary Heart Disease and Hibernation, 1076

Regional myocardial blood flow

Measurement of Regional Myocardial Blood Flow With Multiple Colored Microspheres, 974

Mechanism of Coronary Vasodilation Produced by Bradykinin, 2048

Regional myocardial contractility

Coronary Vasodilator Reserve: Comparison of the Effects of Papaverine and Adenosine on Coronary Flow, Ventricular Function, and Myocardial Metabolism, 294

Regional myocardial contraction

Myocardial Perfusion-Contraction Matching: Implications for Coronary Heart Disease and Hibernation, 1076

Regional myocardial function

No Effect of Coronary Perfusion on Regional Myocardial Function Within the Autoregulatory Range in Pigs: Evidence Against the Gregg Phenomenon, 1390

Regional wall motion

Interventricular Coronary Steal Induced by Stenosis of Left Anterior Descending Coronary Artery in Exercising Pigs, 1361

Regurgitant jets

Effects of Pressure and Volume of the Receiving Chamber on the Spatial Distribution of Regurgitant Jets as Imaged by Color Doppler Flow Mapping: An In Vitro Study, 605

Reinfarction

Immediate Versus Deferred β -Blockade Following Thrombolytic Therapy in Patients With Acute Myocardial Infarction: Results of the Thrombolysis in Myocardial Infarction (TIMI) II-B Study, 422

Rejection

Myocyte Injury and Contraction Abnormalities Produced by Cytotoxic T Lymphocytes, 1410

Renal angioplasty

Angioplasty for the Treatment of Azotemia and Renovascular Hypertension in Atherosclerotic Renal Artery Disease, I-162

Renal arteries, stenosis

Results and Complications of Angioplasty in Fibromuscular Disease, I-155

Renal arteries, transluminal angioplasty

Results and Complications of Angioplasty in Fibromuscular Disease, I-155

Renin

Effect of Weight Reduction in Moderately Overweight Patients on Recorded Ambulatory Blood Pressure and Free Cytosolic Platelet Calcium, 552

Renovascular disease

Management of Renovascular Disease: A Surgical Perspective, I-167

Renovascular hypertension

Angioplasty for the Treatment of Azotemia and Renovascular Hypertension in Atherosclerotic Renal Artery Disease, I-162

Reocclusion

Kistrin, a Polypeptide Platelet GPIIb/IIIa Receptor Antagonist, Enhances and Sustains Coronary Arterial Thrombolysis With Recombinant Tissue-Type Plasminogen Activator in a Canine Preparation, 1038

Reperfusion

Abnormal Automatic Rhythms in Ischemic Purkinje Fibers Are Modulated by a Specific α_1 -Adrenergic Receptor Subtype, 2076

Noninvasive Identification of Myocardium at Risk in Patients With Acute Myocardial Infarction and Nondiagnostic Electrocardiograms With Technetium-99m-Sestamibi, 1615

Reperfusion injury

Reduction of Myocardial Reperfusion Injury by Intravenous Adenosine Administered During the Early Reperfusion Period, 237

Research Advances Series

Cardiac Hypertrophy: Mechanical, Neural, and Endocrine Dependence, 13

Restenosis

Fibrocellular Tissue Response After Percutaneous Transluminal Coronary Angioplasty: An Immunocytochemical Analysis of the Cellular Composition, 1327

Morphological Observations Late (>30 Days) After Clinically Successful Coronary Balloon Angioplasty, I-28

Rheology

Association of Human Leukocyte Class II Antigens With Rheumatic Fever or Rheumatic Heart Disease in a Brazilian Population, 1995

Fibrinogen, Viscosity, and White Blood Cell Count Are Major Risk Factors for Ischemic Heart Disease: The Caerphilly and Speedwell Collaborative Heart Disease Studies, 836

Rheumatic heart disease

Association of Human Leukocyte Class II Antigens With Rheumatic Fever or Rheumatic Heart Disease in a Brazilian Population, 1995

Percutaneous Balloon Versus Surgical Closed Commissurotomy for Mitral Stenosis: A Prospective, Randomized Trial, 1179

Right coronary artery

Right Coronary Artery Disease: Pathophysiology, Clinical Relevance, and Methods for Recognition, III-54

Right ventricle

Interventricular Coronary Steal Induced by Stenosis of Left Anterior Descending Coronary Artery in Exercising Pigs, 1361

Risk factors

Association Between Blood Pressure and Serum Lipids in a Population: The Tromsø Study, 1305

Expected Gains in Life Expectancy From Various Coronary Heart Disease Risk Factor Modifications, 1194

Low Rate of Treatment of Hypercholesterolemia by Cardiologists in Patients With Suspected and Proven Coronary Artery Disease, 1294

QTc Prolongation Measured by Standard 12-Lead Electrocardiography Is an Independent Risk Factor for Sudden Death Due to Cardiac Arrest, 1888

Risk stratification

Heart Rate Adjustment of Exercise-Induced ST Segment Depression: Improved Risk Stratification in the Framingham Offspring Study, 866

S

Safety

Safety of Transesophageal Echocardiography: A Multicenter Survey of 10,419 Examinations, 817

Screening

Screening for Total Cholesterol: Do the National Cholesterol Education Program's Recommendations Detect Individuals at High Risk of Coronary Heart Disease? 1287

Second-hand smoke

Passive Smoking and Heart Disease: Epidemiology, Physiology, and Biochemistry, 1

Serotonin

Loss of Endothelial Pertussis Toxin-Sensitive G Protein Function in Atherosclerotic Porcine Coronary Arteries, 652

Sex factors

In-Hospital and 1-Year Mortality in 1,524 Women After Myocardial Infarction: Comparison With 4,315 Men, 484

Shortening deactivation

Nonlinearity and Load Sensitivity of End-Systolic Pressure-Volume Relation of Canine Left Ventricle In Vivo, 315

SI model

Epicardial Activation and Repolarization Patterns in Patients With Right Ventricular Hypertrophy, 104

Signal averaging

Diagnostic Implications of Spectral and Temporal Analysis of the Entire Cardiac Cycle in Patients With Ventricular Tachycardia, 1637

What Is the Best Predictor of Spontaneous Ventricular Tachycardia and Sudden Death After Myocardial Infarction? 756

Single ejecting beat

Single-Beat Estimation of the Slope of the End-Systolic Pressure-Volume Relation in the Human Left Ventricle, 202

Smoking

Fibrinogen, Viscosity, and White Blood Cell Count Are Major Risk Factors for Ischemic Heart Disease: The Caerphilly and Speedwell Collaborative Heart Disease Studies, 836

Ischemic Heart Disease and Platelet Aggregation: The Caerphilly Collaborative Heart Disease Study, 38

Relation Between Tobacco Use and Urinary Excretion of Thromboxane A₂ and Prostacyclin Metabolites in Young Men, 1698

Smooth muscle cells

Morphological Changes and Smooth Muscle Cell Proliferation After Experimental Excimer Laser Treatment, 1380

Sodium bicarbonate

Hemodynamic and Electrophysiological Actions of Cocaine: Effects of Sodium Bicarbonate as an Antidote in Dogs, 1799

Sodium channel blockers

Kinetics of Use-Dependent Ventricular Conduction Slowing by Antiarrhythmic Drugs in Humans, 1987

Sodium nitroprusside

Endothelin-1-Induced Vasoconstriction in Humans: Reversal by Calcium Channel Blockade but Not by Nitrovasodilators or Endothelium-Derived Relaxing Factor, 469

Endothelium-Dependent Responses in Long-term Human Coronary Artery Bypass Grafts, 402

ST segment depression

Heart Rate Adjustment of Exercise-Induced ST Segment Depression: Improved Risk Stratification in the Framingham Offspring Study, 866

Stenoses

An In Vivo Model of Experimental Arterial Stenosis, Intimal Damage, and Periodic Thrombosis, IV-3

Clinical and Anatomical Considerations for Nonoperative Therapy in Tibial Disease and the Results of Angioplasty, I-86

Clinical and Anatomical Considerations for Surgery in Aortoiliac Disease and Results of Surgical Treatment, I-42

Intravascular Stents: General Principles and Status of Lower-Extremity Arterial Applications, I-122

Results and Complications of Angioplasty in Aortoiliac Disease, I-53

Use of Endovascular Stents in Congenital Heart Disease, 1923

Stents

Clinical Experience With the Palmaz-Schatz™ Coronary Stent: Initial Results of a Multicenter Study, 148

Coronary Stenting With a New, Radiopaque, Balloon-Expandable Endoprosthesis in Pigs, 1788

Intravascular Stents: General Principles and Status of Lower-Extremity Arterial Applications, I-122

Use of Endovascular Stents in Congenital Heart Disease, 1923

Streptokinase

Efficacy of Thrombolysis in Intraaortic Bypass Grafts, I-99

Multicenter Patency Trial of Intravenous Anistreplase Compared With Streptokinase in Acute Myocardial Infarction, 126

Thrombolytic Therapy With Streptokinase Stimulates Collagen Breakdown, 1969

Stress

Assessment of Ventricular Function With an Ambulatory Left Ventricular Function Monitor, II-166

Autonomic Nervous System and Coronary Blood Flow Changes Related to Emotional Activation and Sleep, II-81
